PROJECT OVERVIEW

My project, "FutureMe," is a digital portfolio that I created to showcase my skills and aspirations. As a 2nd-year BCAB student, I wanted a more dynamic way to present my work than a traditional resume. This website demonstrates my abilities in HTML, CSS, and JavaScript and serves as a creative platform to share my academic background, personal goals, and vision for the future. Essentially, it's a way for me to bring my journey and potential to life for others to see.
